

Report za letný semester

Git repozitár: https://github.com/MartinKrizan/morpology_of_five_regular_edge_uncolorable_graphs

- vygenerované zoznamy 5-regulárnych nezafarbitelných multigrafov s max 2 paralelnými hranami po 12 vrcholov
https://github.com/MartinKrizan/morpology_of_five_regular_edge_uncolorable_graphs/tree/main/data/multigraphs
- konštrukcia na transformáciu 5-regulárneho multigrafu na jednoduchý graf
https://github.com/MartinKrizan/morpology_of_five_regular_edge_uncolorable_graphs/blob/main/docs/research-notes.md
- identifikácia príčin nezafarbitelnosti grafov po 16 vrcholov
 - https://github.com/MartinKrizan/morpology_of_five_regular_edge_uncolorable_graphs/blob/main/docs/research-notes.md
 - https://github.com/MartinKrizan/morpology_of_five_regular_edge_uncolorable_graphs/blob/main/docs/research-notes.md#odd-component-cut-observation
- skript na generovanie veľkých nezafarbitelných grafov
 - https://github.com/MartinKrizan/morpology_of_five_regular_edge_uncolorable_graphs/blob/main/docs/research-notes.md#odd-component-cut-observation
 - https://github.com/MartinKrizan/morpology_of_five_regular_edge_uncolorable_graphs/blob/main/python/morphology_graphs/cli/generate_overfull.py
- program na vyhodnotenie zafarbitelnosti pomocou CP-SAT
 - CP-SAT model:
https://github.com/MartinKrizan/morpology_of_five_regular_edge_uncolorable_graphs/blob/main/python/morphology_graphs/core/is_colorable.py
 - skript:
https://github.com/MartinKrizan/morpology_of_five_regular_edge_uncolorable_graphs/blob/main/python/morphology_graphs/cli/filter_uncol.py
- benchmark algoritmov na vyhodnotenie zafarbitelnosti
 - https://github.com/MartinKrizan/morpology_of_five_regular_edge_uncolorable_graphs/blob/main/python/benchmark/README.md
- testy pomocných funkcií na spracovanie grafov
- automatizovanie buildovania projektu
 - https://github.com/MartinKrizan/morpology_of_five_regular_edge_uncolorable_graphs/blob/main/Dockerfile
 - https://github.com/MartinKrizan/morpology_of_five_regular_edge_uncolorable_graphs/blob/main/README.md#setup
